

DAILY DEFENCE FLUID BROAD SPECTRUM SPF50

CALM + SOOTHE

ectoin shield complex® – bisabolol –
centella asiatica

50 ml | 1,7 fl.oz

GROUP
FACE F | 6650

PRODUCT

This advanced daily mineral SPF 50 fluid is specially developed for sensitive, easily reactive skin that tends to show redness, irritation or discomfort. The formula provides high, broad-spectrum protection against UVA, UVB and blue light, while helping defend the skin against pollution and other environmental stressors that can disrupt skin balance.

Designed as a daily 360° skin shield, this fluid supports the skin 365 days a year, not only during periods of sun exposure. The ultra-light, subtly transparent tint absorbs instantly and leaves a soft, comfortable, smoothing effect without white cast or greasiness. Powered by a combination of mineral filters, soothing botanicals and biomimetic protective ingredients, this fluid helps calm, comfort and rebalance the skin — even when sensitivity or redness is present.

BEAUTY BENEFITS

This daily mineral fluid soothes, comforts and supports sensitive skin, while protecting it from harmful rays and everyday environmental stress. The formula helps reduce redness, strengthens skin resilience and promotes a calmer, more even-looking complexion.

The subtle tint melts seamlessly into the skin, providing light evening without visible colour — ideal under makeup or worn on its own. Perfect for sensitive, redness-prone and combination skin types, this fluid helps calm irritation, supports recovery and keeps the skin balanced under daily stress. Suitable for hormonally sensitive skin, temperature fluctuations and skin that reacts easily. Non-comedogenic, suitable for daily use and designed as a year-round staple in your morning skincare routine.

APPLICATION

Shake well before use to ensure the mineral filters are evenly mixed. Apply an even layer to the face and neck every morning as the final step in your skincare routine. The airy, softly tinted texture absorbs instantly and forms a flexible, non-greasy protective veil.

Apply before sun exposure. Reapply regularly to maintain optimal protection, especially after sweating or swimming. Avoid prolonged sun exposure during peak hours. Keep babies and young children out of direct sunlight. Avoid contact with eyes, mucous membranes and open wounds. Not suitable for children under 3 years. Not for ingestion.

BOTANICAL ACTIVES

Ectoin Shield Complex®: The Ectoin Shield Complex® forms the foundation of all Likami Daily Defence Fluids. Rather than a collection of separate ingredients, this complex is an adaptive, synergistic protection system that brings together natural biotechnology and advanced mineral defence. It acts as a living, responsive mechanism that continuously adapts to the skin's needs while enhancing the performance of every active ingredient in the formula.

At its core is Ectoin, a biomimetic extremolyte that enables micro-organisms to survive extreme heat, UV exposure and dehydration. On the skin, Ectoin creates a molecular protective shield that stabilises cell membranes, reduces oxidative stress, calms micro-inflammation and limits transepidermal water loss. The result is a stronger barrier, long-lasting hydration and skin that feels more resilient and less reactive.

The complex is further supported by aloe vera (Aloe Barbadensis Leaf Juice), which hydrates, soothes and helps maintain formula stability, and by vitamin E (Tocopherol), a powerful antioxidant that neutralises free radicals and supports the effectiveness of the mineral filters.

What makes the Ectoin Shield Complex® truly unique is its direct synergy with the 100% mineral filters — Zinc Oxide and Titanium Dioxide. Thanks to high-tech dispersion technology, these filters are distributed extremely evenly, making them far more transparent than traditional mineral SPF's and creating a refined, lightweight texture with no white cast. Together, they deliver highly photostable protection against UVA, UVB and blue light, as well as pollution-induced oxidative stress. In synergy with Ectoin, this results in a modern, intelligent form of daily mineral protection that doesn't sit on top of the skin, but moves with it.

Centella Asiatica Extract (Cica): Centella asiatica is known for its powerful repairing, soothing and anti-inflammatory properties. This extract supports collagen and ceramide synthesis, strengthens the skin barrier and helps reduce redness at its source. Centella promotes faster recovery of sensitive skin areas and contributes to a more stable, calm complexion — ideal for sensitive, reactive and redness-prone skin types.

Bisabolol: Bisabolol, derived from chamomile, is known for its soothing and anti-inflammatory properties. It helps reduce redness and improves skin comfort, especially in dry or sensitive skin that reacts easily to external stressors

Calendula- and Chamomile-extract: Calendula (marigold) and chamomile are classic botanical soothers, rich in flavonoids and calming compounds. They help reduce irritation, soothe the skin immediately and promote a more comfortable skin feel. With their gentle antioxidant activity, they protect against daily stressors and support a calmer, less red-looking complexion.

Apricot Kernel Oil (Apricot Kernel Oil): Rich in omega fatty acids and vitamins, apricot kernel oil nourishes and softens the skin. It helps reinforce the lipid barrier and keeps the skin elastic and comfortable without feeling heavy or greasy — ideal for sensitive or combination skin that needs softness without overload.

Raspberry Seed Oil (Rubus Idaeus Seed Oil): Raspberry seed oil is rich in natural antioxidants, including tocopherols, which help protect the skin from oxidative stress. It softens the skin surface, supports elasticity and helps the skin feel calmer and more comfortable, even when exposed to daily stressors.

Glycerin (Glycerin): Glycerin is a plant-derived humectant with strong water-binding properties. It helps attract and retain moisture in the upper layers of the skin, supports the skin's natural hydration barrier and helps prevent dehydration.

INGREDIENTS:

Aloe barbadensis Leaf Juice**, Caprylic/capric Triglyceride, Titanium Dioxide, Coco-caprylate, Decyl Oleate, Glycerin**, Zinc Oxide, Aluminum Hydroxide, Polyglyceryl-2 Dipolyhydroxystearate, Stearic Acid, Maltodextrin, Polyglyceryl-3 Diisostearate, Aqua, Cetearyl Oliviate, Zea Mays Starch, Glyceryl Caprylate, Sorbitan Oliviate, Ectoin, Thymus zygis Oil, Xanthan Gum, Glyceryl Undecylenate, Glycine Soja Oil, Tocopherol, Prunus Armeniaca Kernel Oil, Rubus idaeus Seed Oil**, Bisabolol, Phytic Acid, Chamomilla Recutita Flower Extract**, Calendula officinalis Flower Extract**, Citric Acid, Centella Asiatica Extract**, Benzyl Alcohol, Potassium Sorbate, Sodium Benzoate, Linalool*, Farnesol*, Pinene*, Beta-Caryophyllene*, Alpha-Terpinene*, Geraniol*, Terpinolene*, Camphor*, Carvone*, Limonene*, Terpineol*, CI 77492, CI 77499, CI 77491. (from 100% natural essential oils / ** certified organic / *** no nanoparticles)
