

DAILY DEFENCE FLUID BROAD SPECTRUM SPF50

HYDRATE + BARRIER

ectoin shield complex® – phytolipid complex –
polyglutamic acid

50 ml | 1,7 fl.oz

GROUP
FACE F | 6550

PRODUCT

This advanced daily mineral SPF 50 fluid is designed to deeply hydrate dry and dehydrated skin while visibly strengthening the skin barrier. The formula provides high, broad-spectrum protection against UVA, UVB and blue light, and helps shield the skin from pollution and oxidative stress — everyday factors that contribute to premature skin ageing.

Created as a true 360° skin shield, this fluid protects the skin 365 days a year, not only during periods of sun exposure. At the same time, it helps restore the skin's natural comfort and suppleness. The subtly tinted, ultra-light texture absorbs instantly, evens out the complexion and leaves a comfortable, non-greasy finish with no white cast. Powered by a combination of mineral filters, biomimetic hydrators and nourishing botanical extracts, this fluid delivers effective protection and active skincare in one simple step.

BEAUTY BENEFITS

This daily mineral fluid helps protect the skin from harmful rays and external stressors, boosts skin resilience and supports the recovery processes that are essential for a healthy, strong barrier. It soothes the skin, softens dehydration lines and promotes long-lasting hydration and comfort. Thanks to its subtle tint, the formula blends seamlessly into the skin, creating a soft, even finish that works perfectly for everyday wear — under makeup or on its own. Ideal for dry, dehydrated and barrier-compromised skin types, this daily mineral fluid helps relieve tightness, flakiness and dehydration lines, while supporting skin that reacts sensitively to temperature changes or environmental stress. Suitable for daily use, non-comedogenic and designed to be a year-round staple in your morning skincare routine.

APPLICATION

Shake well before use to ensure the mineral filters are evenly dispersed. Apply a generous, even layer to the face and neck every morning as the final step in your skincare routine. The airy, softly tinted texture absorbs instantly and forms a flexible, non-greasy protective veil. Apply before sun exposure. Reapply regularly to maintain optimal protection, especially after sweating or swimming. Avoid prolonged sun exposure during peak hours. Keep babies and young children out of direct sunlight. Avoid contact with eyes, mucous membranes and open wounds. Not suitable for children under 3 years. Not for ingestion.

BOTANICAL ACTIVES

Ectoin Shield Complex®: The Ectoin Shield Complex® forms the foundation of all Likami Daily Defence Fluids. Rather than a collection of separate ingredients, this complex is an adaptive, synergistic protection system that brings together natural biotechnology and advanced mineral defence. It acts as a living, responsive mechanism that continuously adapts to the skin's needs while enhancing the performance of every active ingredient in the formula.

At its core is **Ectoin**, a biomimetic extremolyte that enables micro-organisms to survive extreme heat, UV exposure and dehydration. On the skin, Ectoin creates a molecular protective shield that stabilises cell membranes, reduces oxidative stress, calms micro-inflammation and limits transepidermal water loss. The result is a stronger barrier, long-lasting hydration and skin that feels more resilient and less reactive.

The complex is further supported by **aloe vera** (Aloe Barbadensis Leaf Juice), which hydrates, soothes and helps maintain formula stability, and by **vitamin E** (Tocopherol), a powerful antioxidant that neutralises free radicals and supports the effectiveness of the mineral filters.

What makes the Ectoin Shield Complex® truly unique is its direct synergy with the 100% mineral filters — **Zinc Oxide** and **Titanium Dioxide**. Thanks to high-tech dispersion technology, these filters are distributed extremely evenly, making them far more transparent than traditional mineral SPF's and creating a refined, lightweight texture with no white cast. Together, they deliver highly photostable protection against UVA, UVB and blue light, as well as pollution-induced oxidative stress. In synergy with Ectoin, this results in a modern, intelligent form of daily mineral protection that doesn't sit on top of the skin, but moves with it.

Polyglutamic Acid (γ-PGA): A biotechnological biopolymer that binds up to four times more moisture than hyaluronic acid. It forms an ultra-thin, breathable film that locks in hydration, reduces transepidermal water loss and keeps the skin smooth, supple and comfortable for longer.

Phytolipid Complex: The Phytolipid Complex is a targeted blend of plant-based lipids designed to intensively support the skin's natural barrier. Biomimetic jojoba lipids form the foundation; their structure closely mimics human sebum, helping to keep the skin supple and replenish deficiencies in the lipid layer. Raspberry seed oil provides natural antioxidants and supports elasticity, while avocado oil is rich in nourishing fatty acids that help reduce dryness-related stress. Karanja extract adds an extra layer of protective benefits, and abyssinian oil delivers an exceptionally smooth, silky skin feel. Together, these lipids strengthen the skin barrier, reduce moisture loss, soften roughness and contribute to resilient, comfortable skin that is better equipped to handle daily environmental stressors.

Geranium oil (Perlargonium graveolens oil): A natural antioxidant and anti-inflammatory oil that helps calm irritated, blemish-prone and acne-sensitive skin.

Bisabolol: Bisabolol, derived from chamomile, is known for its soothing and anti-inflammatory properties. It helps reduce redness and improves skin comfort, especially in dry or sensitive skin that reacts easily to external stressors.

Glycerin (Glycerin): A plant-derived humectant with strong water-binding properties. It helps attract and retain moisture in the upper layers of the skin, supports the skin's natural hydration barrier and helps prevent dehydration.

INGREDIENTS

Aloe barbadensis Leaf Juice**, Caprylic/capric Triglyceride, Titanium Dioxide, Coco-caprylate, Decyl Oleate, Glycerin**, Zinc Oxide, Aluminum Hydroxide, Polyglyceryl-2 Dipolyhydroxystearate, Stearic Acid, Maltodextrin, Polyglyceryl-3 Diisostearate, Cetearyl Oliviate, Zea Mays Starch, Glyceryl Caprylate, Sorbitan Oliviate, Ectoin, Pelargonium graveolens Oil, Xanthan Gum, Glyceryl Undecylenate, Aqua, Glycine Soja Oil, Tocopherol, Crambe Abyssinica Seed Oil, Persea Gratissima Oil, Polyglutamic Acid, Pongamia pinnata Seed Extract**, Rubus idaeus Seed Oil**, Simmondsia chinensis Seed Oil**, Bisabolol, Phytic Acid, Citric Acid, Benzyl Alcohol, Potassium Sorbate, Sodium Benzoate, Citronellol*, Geraniol*, Linalool*, Farnesol*, Citral*, Pinene*, Beta-Caryophyllene*, Geranyl Acetate*, Terpineol*, CI 77492, CI 77491, CI 77499. (from 100% natural essential oils / ** certified organic / *** no nanoparticles)
