PRODUCT

LumiBlush Drops is a versatile, lightweight formula that seamlessly blends into your skin for a natural, radiant glow. This innovative product is perfect for adding a subtle tint to your cheeks, lips, or eyelids. It provides a 'no-makeup' look and feels like a second skin. Specially designed for those seeking a bright and healthy appearance, it is ideal for daily use or as an additional care step alongside SkinPerfex Serum.

BEAUTY BENEFITS

LumiBlush Drops is specially formulated to enhance and brighten your natural look with a blend of nourishing oils and skin-illuminating extracts. This versatile product gives your skin a light, natural glow, perfect for enhancing cheeks, lips, and eyelids. It provides a subtle luminosity that imparts a healthy, youthful appearance to the skin while being barely noticeable as makeup. Whether used alone or in combination with SkinPerfex Serum, LumiBlush Drops offers an easy way to enhance your appearance daily. The hypoallergenic formula minimizes the risk of allergic reactions, making it extremely safe for all skin types, even the most sensitive.

APPLICATION

For optimal results, make sure to shake the LumiBlush Drops well before use. This ensures a perfect blend of the light-reflecting pearls and nourishing ingredients, allowing you to experience maximum benefits each time. Apply just a few drops with your fingertips, gently tapping them into the skin for seamless integration. For a more defined application or to intensify the color, use our specially designed Beauty Blender Brush. This technique ensures even distribution and a flawless finish that enhances your natural look without overwhelming the skin.

LumiBlush Drops is available in two stunning shades: 'Coral' and 'Terra'. This multifunctional liquid can be applied to the cheeks for a fresh blush, to the lips for a natural color enhancement, on the eyelids as a subtle eyeshadow, or even for contouring to highlight specific facial features. Complementing SkinPerfex Serum, LumiBlush Drops can be used to add extra dimension and glow, making your skin not only well-nourished but also visually enlivened. The formula is designed to allow the skin to breathe, while subtle, light-reflecting pearls add a "you-look-great" radiance that accentuates your true beauty.

BOTANICAL ACTIVES

Phytosqualane (Squalane): Phytosqualane is an excellent emollient that provides elasticity and prevents dryness. It has a high affinity with the epidermis, ensuring excellent permeability and long-lasting hydration. It also strengthens the skin's lipid barrier, which is essential for maintaining a healthy skin structure.

Macadamia oil (Macadamia Integrifolia Seed Oil): This organic oil is rich in nourishing fatty acids that soften and hydrate the skin. It also helps protect the skin from environmental stressors by strengthening the skin barrier.

Argan oil (Argania Spinosa Kernel Oil): Known for its restorative and nourishing properties, argan oil improves skin texture and elasticity. It is rich in antioxidants and essential fatty acids, making it ideal for softening and revitalizing the skin.

Jojoba oil (Simmondsia Chinensis Seed Oil): This oil regulates the skin's natural oil production, keeping it hydrated without leaving a greasy feel. Jojoba oil is particularly effective in improving skin texture and suppleness.

Sweet almond oil (Prunus Amygdalus Dulcis Oil): Perfect for sensitive and dry skin types, this oil deeply soothes and nourishes the skin. It is rich in vitamin E, which helps repair the skin and reduce irritation.

Mica: This mineral imparts a subtle shimmer and reflects light, enhancing the natural luminosity of the skin. Mica is used to give the skin a fresh and radiant appearance, making it especially valuable in products aimed at boosting skin brightness.

Magnesium sulfate (Magnesium Sulfate): Magnesium sulfate, known for its calming properties, provides relief to stressed and irritated skin. It promotes relaxation and aids in detoxifying the skin by removing impurities, resulting in a fresher and cleaner appearance.

Glycerine: Glycerine is a powerful humectant that helps draw and retain water in the skin, providing long-lasting hydration and making the skin soft and supple. Glycerine also enhances the skin barrier function and protects against irritation, making it an essential ingredient for dry and sensitive skin types.
