

## DEODORANT CREAM

magnesium – zinc complex – arnica

50 ml | 1,7 fl.oz

GROUP  
BALMS & SALVES BS | 6150

### PRODUCT

A pure, active and all-natural aluminium-free odour care cream that goes beyond traditional deodorants. This multitasking balm provides targeted, full-body odour control – from underarms to feet, from the groin area to the lower back – wherever warmth, friction or perspiration may cause unwanted body odour. The rich, creamy texture melts into the skin, spreads effortlessly and absorbs quickly without any stickiness or residue. It leaves no white marks on clothing and is suitable for daily use, even on sensitive skin or directly after shaving. Formulated with magnesium, arnica, shea butter, jojoba, and sage, this deodorant balances the skin's microbiome, calms irritation, and delivers long-lasting freshness without clogging pores.

### BEAUTY BENEFITS

A natural, aluminium-free odour care cream that provides effective, long-lasting freshness while nourishing and protecting delicate skin zones. This gentle formula supports the skin's pH balance and microbiome, neutralises odour-forming bacteria, and helps to soothe irritation or redness after shaving or friction. Leaves the skin feeling soft, calm, and comfortable — all day long.

### APPLICATION

Apply a small amount to clean, dry skin. Massage gently until fully absorbed. In colder temperatures, the texture may firm up slightly — simply warm between fingertips before application. Can be used on the underarms, feet, groin area, or any zone that deserves to stay fresh. Suitable for all skin types and gender-neutral. Ideal for daily use and after shaving.

### BOTANICAL ACTIVES

**Magnesium (Magnesium Chloride, Magnesium Sulphate):** A natural odour-blocker that helps suppress odour-causing bacteria without blocking the pores. Regulates perspiration gently, supports the skin's natural pH balance, and soothes sensitive areas prone to irritation.

**Zinc Ricinoleate:** A highly effective, natural odour absorber derived from castor oil. Traps and neutralises odour molecules without interfering with the skin's natural flora or perspiration. Provides long-lasting freshness in a gentle, non-irritating way.

**Arnica extract (Arnica Montana Flower Extract):** Reduces redness and supports skin recovery from friction or minor irritation. Helps calm sensitive zones and leaves skin feeling refreshed and balanced — ideal for post-shaving care.

**Coconut oil (Cocos Nucifera Oil):** Coconut oil has antiseptic properties. Provides skin tone, protection, softness and youth thanks to its re-structuring action. It also softens the skin layers leaving the skin clean and beautiful.

**Castor oil (Ricinus communis Seed Oil):** It is a valuable ally thanks to its regenerative power and its soothing properties. It's also very known for its antimicrobial and anti-inflammatory properties. Castor oil is also rich in fatty acids. These can enhance smoothness and softness when applied to skin.

**Vitamin E (Tocopherol):** Vitamin E has many properties, but it stands out as being known as the vitamin of youth and beauty. It is an antioxidant that protects cells from all external aggression such as pollution, pesticides and stress, the main cause of premature aging. Vitamin E also contributes significantly to the production of energy.

**Shea butter (Butyrospermum parkii):** Shea butter has moisturizing, emollient and skin protectant properties. It is a powerful moisturizing and very nutritious agent. Thanks to the high concentration of unsaturated fatty acids, it's a natural cell regenerator with great soothing and re-structuring properties to the skin providing greater firmness and softness.

**Jojoba oil (Simmondsia chinensis Seed Oil):** Apart from its excellent emollient action that provides deep hydration and softness, it has a special feature that makes it essential for deep hydration of the corneum stratum because it creates a protective lipid layer non-fat, which provides a similar effectiveness to the mineral oil.

**Extract of Sage (Salvia officinalis):** Sage extract regulates the amount of fat produced by the sebaceous glands of the skin, leaving it clean after application. It has astringent and calming actions.

**Baking soda (Sodium Bicarbonate):** This white natural mineral helps regulate the pH of the skin and consequently neutralizes odors due to sweating. Sodium Bicarbonate is also a moisture absorber which naturally prevents excessive sweating by limiting the growth of odor producing bacteria.

### INGREDIENTS:

Cocos Nucifera Oil\*\*, Sodium Bicarbonate, Coco-Caprylate/Caprate, Butyrospermum Parkii Butter\*\*, Zea Mays Starch, Cera Alba, Aqua, Zinc Ricinoleate, Ricinus communis Seed Oil\*\*, Simmondsia chinensis Seed Oil\*\*, Candelilla Cera, Tocopheryl Acetate, Helianthus Annuus Seed Oil, Salvia Lavandulifolia Seed Oil, Glyceryl Caprylate, Magnesium Chloride, Glyceryl Undecylenate, Arnica montana Flower Extract, Melaleuca Alternifolia Leaf Oil, Sodium Chloride, Potassium Chloride, Magnesium Sulphate, Tocopherol, Calcium Chloride, Benzyl Alcohol, Camphor\*, Pinene\*, Limonene\*, Linalool\*, Linalyl Acetate\*, Terpineol\*, Beta-Caryophyllene\*, Geraniol\*, Terpinolene\*, Amyl Cinnamal\*, Alpha-Terpinene\*, Citral\*, Geranyl Acetate\*.  
(\* from 100% natural essential oils / \*\* certified organic)
