LIGHT-MEDIUM-DEEP

PRODUCT

SkinPerfex Serum is a groundbreaking hybrid formula designed to deliver a natural, 'second-skin' experience without any visible makeup. This revolutionary serum provides a 'no-feel' texture that blends seamlessly with your skin for a flawless, luminous finish. Enriched with a potent blend of bioactive ingredients, the serum offers medium coverage that corrects imperfections without weighing down the skin, allowing you to enjoy an invisible layer that feels comfortable all day long.

BEAUTY BENEFITS

Every drop of SkinPerfex Serum is infused with skin-strengthening peptides and hydrating phytosqualane, which deeply nourish the skin and enhance its resilience. This formula is enriched with antioxidants that shield the skin from daily stressors and environmental impacts, while also promoting the skin's natural luminosity and health. The result is a radiant, rejuvenated, and firmer complexion that looks, feels, and functions healthily, all with the subtlety of a 'no-makeup' product. The hypoallergenic composition minimizes the risk of allergic reactions, making the serum exceptionally safe for all skin types, even the most sensitive.

APPLICATION

For optimal results, it is essential to shake the SkinPerfex Serum well before use. This ensures that the active ingredients are perfectly blended, allowing you to experience maximum benefits each time. The serum is available in three carefully selected shades: Light, Medium, and Deep, which can be used alone or mixed to create the perfect custom shade. The unique 'no feel' texture of the serum ensures that it blends seamlessly with your skin without feeling heavy, making it perfect for daily use.

Begin with a clean, dry face for optimal serum application. Place a few drops in the palm of your hand and use your fingers to dot the serum evenly across your cheeks, chin, and forehead. Blend the dots using your fingers for a natural finish or use our Liquid Blender Brush for a more defined and polished look. Add extra serum selectively to areas needing more coverage, such as to reduce redness or even out skin tone, using the same dotting technique for a flawless blend. This approach ensures a lightweight, seamless finish that enhances your skin's natural beauty without feeling heavy or greasy.

BOTANICAL ACTIVES

Peptides (Benzoyl Dipeptide-18 D-Phenylalanyl Arginyl D-Tryptophan Dipropylamide Mesylate): These peptides promote skin rejuvenation by stimulating collagen production, which helps to firm the skin and reduce fine lines and wrinkles. They contribute to improved skin texture and elasticity, making the skin look more youthful and refreshed. These peptides also enhance the natural radiance of the skin by activating melanin synthesis and reducing oxidative stress. Additionally, they promote DNA repair and strengthen the skin's internal defense, contributing to the resilience and health of the skin.

Phytosqualane (Squalane): Phytosqualane is an excellent emollient that provides elasticity and prevents dryness. It has a high affinity with the epidermis, ensuring excellent permeability and long-lasting moisturization. It also strengthens the skin's lipid barrier, which is essential for maintaining a healthy skin structure.

Oleic/Linoleic/Linolenic Polyglycerides: This blend of essential fatty acids strengthens the skin barrier and enhances moisture retention. These natural lipids help to nourish and protect the skin from external influences, resulting in a smooth and resilient complexion.

Portulaca (Portulaca Oleracea Extract): This extract is renowned for its excellent anti-inflammatory and antioxidant properties. It helps soothe the skin and protect it from external stressors, making it ideal for improving skin health and reducing redness and irritation. Used in a functional dose, this extract helps detoxify and shield the skin from external stressors such as smog. Its detoxifying properties support the resilience of the skin and enhance its ability to withstand daily stress.

Magnesium sulfate (Magnesium Sulfate): Known for its soothing properties, magnesium sulfate provides relief to stressed and irritated skin. It promotes relaxation and aids in detoxifying the skin by removing impurities, resulting in a fresher and cleaner appearance.

Glycerine: Glycerine is a powerful humectant that helps draw and retain water in the skin, providing long-lasting hydration and leaving the skin soft and supple. It also enhances the skin barrier function and protects against irritation, making it an essential ingredient for dry and sensitive skin types.

INGREDIENTS

Aqua / Water, Isoamyl Laurate, C9-12 Alkane, Propanediol, Squalane, Glycerin, Mica, Polyglyceryl-6 Polyricinoleate, Polyglyceryl-3 Diisostearate, Oleic/Linoleic/Linolenic Polyglycerides, Magnesium Sulfate, Polyglyceryl-2 Isostearate, Distearidimonium Hectorite, Pentylene Glycol, Glyceryl Caprylate, Coco-Caprylate/Caprate, Sodium Dehydroacetate, Disodium Stearoyl Glutamate, Glyceryl Undecylenate, Magnesium Stearate, Microcrystalline Cellulose, Sodium Phytate, Portulaca Oleracea Extract, Aluminum Hydroxide, Cellulose Gum, Benzoyl Dipeptide-18 D-Phenylalanyl Arginyl D-Tryptophan Dipropylamide Mesylate, Alcohol.

May contain (+/-) : CI 77891 / Titanium Dioxide, CI 77491 / Iron Oxides, CI 77492 / Iron Oxides, CI 77499 / Iron Oxides.
