EXFOLIANT CREAM

KORNAKREM

apricot seed – polylactic acid – green tea

100 ml | 3,4 fl.oz

GROUP
FACE F | 101100

PRODUCT

A mild & gentle skin-polishing exfoliant cream for daily use, to remove impurities, dry and dead skin cells and to stimulate cell regeneration. This antioxidant-rich exfoliant with natural apricot seed, polylactic acid, green tea and green coffee instantly exfoliates revealing smoother, more radiant, more refined skin which is perfectly prepared for moisturizing.

BEAUTY BENEFITS

This gentle cream-based exfoliant sloughs away tired and dead skin cells and softens the skin. De-flakes, refines, softens tiny lines. Leaves skin refreshed.

APPLICATION

Apply to damp skin with clean hands, then gently work over the face, neck and body with smooth circular strokes. Rinse with tepid water and pat skin dry. For all skin types, gender neutral.

BOTANICAL ACTIVES

Green tea (Camellia sinensis leaf extract + Camellia oleifera seed oil): Thanks to its antioxidant power, green tea helps protect the skin against the damaging effects of free radicals, delaying the aging of the skin. Green tea is proven to be great UV-protectant, anti-inflammatory, anticarcinogenic and antimicrobial. Because of these properties, green tea is also great choice for skin diseases including rosacea, acne and topic dermatitis.

Green coffee seed extract (Coffea arabica seed extract): green coffee is extracted from raw, unroasted coffee beans. It is moisturizing, softening, nourishing, and toning. Thanks to its high concentration of the polyphenol chlorogenic acid, green coffee has protective antioxidant and regenerating properties that are ideal for all skin types; especially mature and damaged skin. It also contains tannins which offer astringent properties to help balance oily skin and tighten the appearance of pores. Green coffee contains caffeine to help stimulate circulation and restore balance. When massaged into skin, it may also help release excess fluid to mitigate puffy face and eyes.

Glycerin (Glycerin): Glycerin is a skin-replenishing and skin-restoring ingredient, meaning it is a substance found naturally in skin, helping to establish normal balance and hydration. It's one of the many substances in skin that helps maintain a healthy look and feel, defending against dryness and working to maintain skin's moisture level. Essentially, glycerin is a master at hydration and works best when combined with other replenishing and emollient ingredients.

Aloe vera (Aloe barbadensis) : Aloe Vera is one of the most complete cosmetics actives. With the action of natural nutrients, minerals, vitamins, amino acids and enzymes it stimulates cell regeneration to repair damaged tissues. It is an excellent enhancer in protective preparations. It has revitalizing properties, moisturizing, soothing and refreshing actions.

Apricot Seed (Prunus Armeniaca Seed Powder):

The fine grains of apricot seed help to exfoliate the skin. In addition, the apricot has many nutrients (vitamins and fatty acids), ideal to nourish the skin.

Polylactid Acid (Polylactid Acid):

Polylactic Acid from corn starch gently assists delaminating and dissolving dry and dead skin cells, leaving skin looking refreshed and revitalized. It helps the skin to breathe and encourages the proper renewal of the epidermis.

Lemon Extract (Citrus Limon Fruit Extract):

Contains antioxidant properties by capturing free radicals that cause skin aging.

Vitamin E (Tocopherol):

Vitamin E has many properties, but it stand out as being known as the vitamin of youth and beauty. It is an antioxidant that protect cells from all external aggression such as pollution, pesticides and stress, the main cause of premature aging. Vitamin E also contributes significantly to the production of energy.
