

360° FACE GUARD SPF50

UVA UVB BLUE LIGHT

pH4 natural lifting ferment® – niacinamide – licorice root

50 ml | 1,7 fl.oz

GROUP
FACE F | 6350

PRODUCT

This advanced ultrahigh protection sunscreen SPF50 is designed for skin that needs stronger and more effective protection against wrinkles, dark spots, hyperpigmentation and protects skin against pollution. The anti-ageing formula contains tone-improving ingredients like niacinamide, licorice root, hyaluronic acid, raspberry seed oil and vitamin E for more even-toned and younger-looking skin. 360° Face Guard SPF50 offers very high SPF protection to help prevent sun induced dark spots, while protecting skin from pollution induced oxidative stress. It works to prevent all types of sun damage, including dryness, wrinkles, pigmentation, dark spots and loss of volume. Mineral, chemical free sun filters, ocean & reef friendly, no nanoparticles.

BEAUTY BENEFITS

This antioxidant-rich moisturizing sunscreen is designed to protect the skin from harmful sun radiation, UVA, UVB and Blue Light, while formulated with some barrier protective properties and powerful antioxidants which function as additive complementing ingredients that further helps to prevent, repair sun damage on the skin, facilitating the overall skin recovery processes. Helpful for anyone dealing with impaired moisture barrier, it helps to defend and calm sensitive skin types that are prone to discoloration and breakouts associated with acne and rosacea. This invisible anti-aging mineral sunscreen ensures high broad-spectrum protection with skin-perfecting benefits.

APPLICATION

Apply an even thin layer to the face and neck as the last step in your morning skincare routine. Its ultra-light texture is absorbed instantly and offers daily hydration without leaving a greasy finish on skin. Massage in until completely absorbed. Thanks to its non-oily texture, the cream can be used before makeup to keep your skin safe, all day long. Apply before sun exposure. Re-apply frequently and generously to maintain protection, especially after perspiring or towelling. Pro Tip: Hands are very exposed to pollutants and sun, and age easily, so don't forget to protect them too!

BOTANICAL ACTIVES

pH4 Natural Lifting Ferment® (Pichia Ferment Lysate): pH4 Natural Lifting Ferment is a natural ferment of the sequoia and provides a natural and visible firming effect. PH4 Natural Lifting Ferment stimulates the body's own collagen and elastin synthesis, promoting healthy cell renewal while improving skin texture and firming. Provides anti-aging, inflammation reduction, promote firming and rebuilding of the structural integrity of the epidermis and ultimately improve the visible signs of aging.

Niacinamide (Vitamin B3): Niacinamide, or vitamin B3, is a very effective skin-restoring ingredient that can visibly improve the appearance of enlarged pores, uneven skin tone, fine lines and dullness. Niacinamide improves the skin condition, has anti-inflammatory effects, fights blemishes, brightens hyperpigmentation, unclogs pores, treats signs of ageing, all while replenishing hydration.

Licorice root extract (Glycyrrhiza Glabra Root Extract): The extract has been shown to decrease melanin content when applied to the skin and so reduce skin pigmentation. Licorice root extract acts as an anti-inflammatory to reduce itchy and inflamed skin. Offers anti-bacterial benefits for the skin.

Aloe vera (Aloe barbadensis) : Aloe Vera is one of the most complete cosmetics actives. With the action of natural nutrients, minerals, vitamins, amino acids and enzymes it stimulates cell regeneration to repair damaged tissues. It is an excellent enhancer in protective preparations. It has revitalizing properties, moisturizing, soothing and refreshing actions.

Geranium oil (Pelargonium graveolens oil): Because geranium oil is a natural anti-oxidant and anti-inflammatory oil, it actively boosts skin's health and natural glow. By helping skin stay conditioned, and soothing irritated or breakout prone skin, it fights against skin affected by harsh weather conditions or prone to acne.

Raspberry seed oil (Rubus idaeus seed oil): Raspberry seed oil is cold pressed from the seeds of Rubus idaeus. Raspberry seed oil contains extremely high amounts of essential fatty acids Omega 3 and Omega 6, up to 85%. The oil has exceptional concentrations of tocopherol (Vit.E) and phenols, which are powerful antioxidants. Raspberry oil improves the hydration and elasticity of the skin, it works to correct the signs of ageing and reduce oxidative stress. Laboratory test show that raspberry seed oil acts as a UV filter, absorbing harmful UV-A, UV-B and UV-C rays. Raspberry seed oil is great to use for the prevention of rash, eczema and other skin lesions, it also has anti-inflammatory properties.

Calendula (Calendula officinalis flower extract): Calendula is a powerful agent used to treat scars and stretchmarks. It stimulates the body's natural healing action, regenerates damaged skin and allow the body to produce more collagen (vital to skin recovery). It also works as a nourishing moisturizer and has anti-inflammatory, soothing and protective properties.

Vitamin E (Tocopherol): Vitamin E has many properties, but it stand out as being known as the vitamin of youth and beauty. It is an antioxidant that protect cells from all external aggression such as pollution, pesticides and stress, the main cause of premature aging. Vitamin E also contributes significantly to the production of energy.

Glycerin: Glycerin is a skin-replenishing and skin-restoring ingredient, meaning it is a substance found naturally in skin, helping to establish normal balance and hydration. It's one of the many substances in skin that helps maintain a healthy look and feel, defending against dryness and working to maintain skin's moisture level. Essentially, glycerin is a master at hydration, and works best when combined with other replenishing and emollient ingredients.

Hyaluronic acid: One of the main properties of hyaluronic acid, is its great ability to attract and retain water. Topical application allows rehydrate in depth the epidermis of the treated area; therefore, its appearance is smoother and, also, by increasing its thickness and volume, reduce skin furrows.

Bisabolol: Bisabolol is the major active component of Chamomile. It has long been used in cosmetics for its anti-inflammatory, healing & soothing, and anti-microbial properties.

Chamomile extract (Chamomilla recutita): Chamomile has decongestant and softening properties, stabilizes the skin and also has a soothing action.
